

# eScore™ Self Audit App Now Available on iTunes

November 20, 2015

## eScore Self Audit App Now Available for Android and iPhone Users

The EnergyRight Solutions for the Home team is excited to announce that the eScore Self Audit App is now available at the iTunes Store. The App allows customers with an iPhone, iPad, or iPod touch to complete the eScore Self Audit on their mobile device. The eScore Self Audit app has been available for Android users in the Google Play store since the Summer of 2015.

The eScore Self Audit App allows users to walk through their homes and conveniently complete the Self Audit. It is now easier to count and the number of light bulbs, fuel source, age of major appliances, etc.

### Apple Users

The eScore Self Audit App is compatible for Apple devices utilizing iOS 7.0 or later. The direct link to download the app is located here:

<https://itunes.apple.com/us/app/escore-self-audit/id1044568351?mt=8>

Apple users can also visit the App Store App on their device, select search, and type in eScore Self Audit.

### Android Users

Android users must be using Android 4.1 and up. Those who have not already downloaded the Android app can do so at this location:

<https://play.google.com/store/apps/details?id=com.energydatametrics.selfaudit&hl=en>

Android users can also access the eScore Self Audit app by selecting the Play Store App on their device and typing in eScore Self Audit at the top of the screen.

For more information or any questions you may have regarding the eScore Self Audit App, please feel free to contact your local TVA customer delivery representative.
